- (B) Welcome Pad® + mattress
- (C) Stand-up
- (D) Chassis
- (E) Car seat Darwin Infant Recline Evo
- (F) All Season stroller seat

(A) OPEN UP CARRYCOT

DESCRIPTION:

Pram with generous internal dimensions 79 x 37 cm for babies from zero to approx. 6 months.

MAIN BENEFITS:

- **Guarantees maximum well-being for the child:**
 - This carrycot is equipped with five ventilation windows, each with its own independent opening, allowing you to adjust the airflow inside and ensure the baby's temperature is properly regulated in any weather.
 - The windows also allow you to keep an eye on the baby from every angle, while encouraging their interaction with their surroundings
 - Thanks to its internal dimensions, it allows the widest possible use time, even in the winter months, when the child is wrapped in overalls or padded sleeping bags.
 - The backrest can be reclined in different positions to facilitate digestion after feeding.
 - The base has ventilation holes to ensure optimal airflow inside the carrycot, helping to prevent moisture buildup.
 - Hood in anti-UV (UPF 50+) treated fabric with removable sun visor for shielding against direct sunlight even when the sun is low on the horizon.
- **It is easy and practical to use:**
 - It is easy to transport thanks to its lightweight design and the practical handle
 - It easily detaches from the chassis or stand-up through a convenient central mechanism.
 - The canopy can be easily opened and closed with one hand, thanks to the centralized "Quick Connect" control.
- **It enables comfortable and safe travel:**
 - The rigid polypropylene shell protects the baby from accidental knocks and bumps.
 - The carrycot is fitted with an indicator showing correct attachment to the chassis or stand-up support for greater safety.

ADDITIONAL BENEFITS:

- Inside in soft breathable jersey fabric, completely removable and washable by hand at 30°C.
- External lining in padded fabric, for improved heat insulation, completely removable and washable.
- Apron to protect your baby from the wind and cold.

Optional accessories for the CARRYCOT:

- **Mattress lining** - a bamboo fibre fitted sheet, designed specifically to fit the Welcome Pad®.
- **New-born footmuff** - accompanies you during the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.
- **Rain cover** - protects your child against the rain, but also from excessive cold and snow.
- **Mosquito net** - prevents tiresome insects from disturbing your baby's sleep.

TECHNICAL INFORMATION:

Structure material:	polypropylene
External lining material:	polyester
Inner lining material:	jersey fabric
Weight:	4.9 kg
Internal dimensions:	79 x 37 x 22 cm (length x width x depth)

(B) WELCOME PAD® + MATTRESS

DESCRIPTION:

The Welcome Pad® derives from the "START MATT" medical device (designed by Inglesina in collaboration with the department of Neonatology of the Maggiore Hospital of Bologna) and was made in observance of the latest scientific well-being and safety guidelines. In combination with the mattress, on which it is laid, it creates a very important ergonomic support during the delicate phase of the first months of life of the child.

BENEFIT WELCOME PAD®:

- Promotes lying on the back and alignment of the spine.
- Gives the baby the surrounding and protection they need, especially in the first 7-9 weeks of life.
- Helps keep the airways aligned.
- Can mitigate the risk of plagiocephaly (flat head syndrome).
- Adapts to the growth of the baby, thanks to the adjustable wedge for supporting the legs.
- It allows the temperature and sweating of the baby to be controlled, thanks to its 3D mesh structure coupled with foam padding and bamboo fibre lining, which is highly breathable, hypo-allergenic and anti-bacterial.

MATTRESS BENEFITS:

- It is in medium density foam with 40 holes for ventilation.
 - The part in contact with the baby is covered with bamboo fibre, which is highly breathable, hypo-allergenic and anti-bacterial.
 - A 3D mesh is applied to the base to improve air circulation and prevent the build-up of humidity.
-

(C) STAND-UP

DESCRIPTION:

Support for carrycot. Transforms the carrycot into a real bed for the night to put next to the bed of the parents. Also useful for travels in the first few months.

BENEFITS:

- It allows you not to wake up your new-born on the way back from the walk, positioning the carrycot in a hygienic and safe way.
- The car seat can also be attached for short naps.
- Easy to close and stow away. Once folded up, it takes up very little space.

TECHNICAL INFORMATION:

Structure material:	aluminium-polypropylene
Weight:	1.9 kg
Dimensions when open:	56 x 53 x 70 cm (width x height x depth)
Dimensions when closed:	56 x 66.5 x 13 cm (width x height x depth)

(D) CHASSIS

MAIN BENEFITS:

- It easily tackles all types of terrain thanks to its large, shock absorbed polyurethane wheels (diameter 196 mm front and 260 mm rear).
- It opens and closes with just one hand.
- Once folded up, it is extremely compact, it remains upright on its own and the handle does not touch the ground.
- It passes through the narrowest spaces thanks to the small overall dimensions (only 51.5 cm).
- It is extremely smooth thanks to the ball bearings on the four wheels (Abec 5 type).
- It adapts to the height of the parent thanks to the handle, which is height-adjustable in 4 positions.
- The handle is covered with a stylish leatherette.
- It features chrome finish details to enhance the refined design of the product.
- It is equipped with a large basket with integrated pocket. The reflective material profile makes evening strolls safer.

TECHNICAL INFORMATION:

Structure material:	aluminium-polypropylene
Weight:	7.2 kg
Chassis dimensions when open:	51.5 x 98-110.5 x 83-98 cm (width x height x depth)
Chassis dimensions when closed:	51.5 x 87 x 32 cm (width x height x depth)

(E) DARWIN INFANT RECLINE EVO CAR SEAT

DESCRIPTION:

Reclining car seat approved according to the ECE R129/04 regulation, suitable for children from 40 cm until the child is 87 cm tall.

Compatible with the Darwin 360° i-Size base. It can be installed in the car with or without the base. It can be positioned inside the car only rearward facing, on the rear seats or on the front seat only if the airbag has been disabled.

The innovative I.S.A. (Integrated Shock Absorber) technology absorbs and reduces the energy transmitted to the child in the event of a collision, thus ensuring maximum safety conditions even when supine.

MAIN BENEFITS:

- It guarantees maximum comfort for your child:
 - The reclining mechanism lowers the backrest and extends the leg support, allowing the back and legs to align in an almost completely lie-flat position.
 - Suitable for infants from 40 cm to 87 cm in height, it adapts to their growth to ensure comfort and safety at every stage.
 - The bamboo fibre lining with 3D mesh insert in the head hugger adapter promotes optimal breathability.
 - The structure features perforated areas on the sides and head hugger to encourage air circulation, helping your child to regulate their body temperature.
 - The generous hood is made with a fabric having UPF 50+ treatment for protection against UV rays, shielding your child from the sun.
- Allows you to travel in full safety:
 - The I.S.A. (Integrated Shock Absorber) technology absorbs and reduces the energy transmitted to your child in the event of a collision, ensuring maximum safety conditions even when supine.
 - The Side Head Protection technology provides maximum protection in the event of side impacts.
 - When paired with the Darwin 360° i-Size base, it guarantees a solid and quick attachment of the car seat and prevents the risk of incorrect installation in the car.
 - It can also be reclined when secured with the seat belt, without the base.
- Easy and practical to use:
 - Thanks to the small footprint, the car seat is free to rotate on the base even when fully reclined, without touching the seats.
 - Equipped with a practical central release mechanism, located on the back of the backrest.
 - The inclination is adjusted via a control on the front of the seat, so that your child can be supervised while reclining.
 - The headrest can be height-adjusted via a central control and is integrated with the belt system to adapt to the growth of your child.
 - Its lightweight design makes it easy to carry.
 - The child car seat and hood fabric lining is easily removable and can be hand washed at 30°C.

TECHNICAL INFORMATION

Box content:

- Car seat.

Optional accessories:

- **Darwin 360° base i-Size** - ensures a solid connection to the car seat, thanks to the Isofix attachments. In addition to allowing a quicker transfer of the seat from the chassis to the car and vice versa, it helps by rotating 360° to position your child effortlessly in the car.
- **Newborn footmuff** - accompanies you during your walks in the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.
- **Rain cover** - it protects your child against a sudden downpour, but also from excessive cold and snow.
- **Mosquito net** - prevents tiresome insects from disturbing your baby's sleep.

- **Summer cover** - during the warmest months of the year, it helps keep your baby cool.

Structure material:	polypropylene
Lining material:	bamboo fibre and polyester
Infant car seat harness:	3-point
Position in the car:	Only rearward facing
Weight:	5 kg
Internal width of backrest:	28 cm
Internal height of backrest:	51 cm
Internal width of seat:	26 cm
External seat dimensions:	44 x 39/56 x 63 cm (width x height x depth)
Type approval:	ECE R129/04

(F) ALL SEASON STROLLER SEAT

DESCRIPTION:

All Season seat of the Aptica system stroller.

MAIN BENEFITS:

- It guarantees maximum comfort for the child in all seasons:
 - The seat is equipped with the Comfort Cover, a comfortable padded cover, which completely covers the backrest, to better protect the child from cold.
 - In summer mode the seat, made of a double layer of breathable mesh, allows air to pass through, aiding the child's thermoregulation.
 - The double structural mesh of the backrest ensures the correct posture of the child by supporting their back.
 - The seat is very wide and padded (55x37 cm).
 - The backrest can be reclined in four positions and laid down to the "sleeping" position by means of a central control.
 - Equipped with footrest.
 - The padded shoulder straps and the crotch strap avoid the harness rubbing against your child's delicate skin.
- It comes complete with full cover hood with UV treatment (UPF 50+) and baby bottle holder.
- It easily engages and releases to/from the chassis in both directions.
- Sandwich folding system to take up minimal space.

ADDITIONAL BENEFITS:

- A mesh insert in the hood ensures proper air circulation around the stroller seat, to keep the area cool and ventilated. Excellent to see your child as you walk.
- The stroller and hood lining are fully removable and can be hand washed at 30°C.

STROLLER accessories:

- **Baby Snug Pad** - a soft cotton head hugger that ensures new-borns travel in comfort.
- **Raincover** - protects your child against the rain, but also from wind and snow, and it is full-cover (covering the entire stroller).
- **Summer cover** - during the warmest months of the year, it helps keep your baby cool.
- **Stroller footmuff** - accompanies you during the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.

TECHNICAL INFORMATION:

Structure material:	polypropylene
Lining material:	polyester
Width of backrest:	37 cm
Height of backrest:	55 cm
Width of stroller seat:	30 cm
Weight of stroller seat:	3.2 kg
Dimensions of stroller when open:	51.5 x 109.5-110.5 x 83-98 cm (width x height x depth)
Folded stroller dimensions (towards the street):	51.5 x 87 x 42 cm (width x height x depth)
Folded stroller dimensions (towards the parent):	51.5 x 87 x 40.5 cm (width x height x depth)
Stroller weight (stroller seat + chassis):	10.4 kg
