

DESCRIPTION:

"All Terrain" reversible stroller, approved up from birth until 22 kg in weight.

PAY OFF:

Where Nature Begins

S.P:

For off-limits walks. Thanks to the exclusive Adaptive Cruise System, Aptica XT dynamically adapts to all terrains, always guaranteeing maximum well-being and an agile and fluid operation even in the most extreme conditions.

MAIN BENEFITS:

- It easily tackles all terrains and overcomes all obstacles, thanks to the large rubber wheels (diameter 214 mm front and 305 mm rear) with a differentiated double layer inside, absorbing the vibrations transmitted to the child and to the handle.
- It adapts to every stage of growth of the child, thanks to the independent suspension adjustment system on each wheel.
- It guarantees maximum comfort for the child in all seasons:
 - The seat is equipped with the Comfort Cover, a comfortable padded cover, which completely covers the backrest, to better protect the child from cold.
 - In summer mode the seat, made of a double layer of breathable mesh, allows air to pass through, aiding the child's thermoregulation.
 - The double structural mesh of the backrest ensures the correct posture of the child by supporting their back.
 - The seat is very wide and padded (55x37 cm).
 - The backrest can be reclined in four positions and laid down to the "sleeping" position by means of a central control.
 - Equipped with footrest.
 - The padded shoulder straps and the crotch strap avoid the harness rubbing against your child's delicate skin.
- It is easy and practical to use:
 - It opens and closes with one hand even with the seat fastened, in both configurations (facing parents and facing the street).
 - Once folded up, it remains upright on its own and the handle does not touch the ground.
 - It is extremely smooth thanks to the double ball bearings on the four wheels (Abec 5 type).
 - The seat easily engages and releases to/from the chassis, in both directions.
 - It adapts to the height of the parent thanks to the handle, which is height-adjustable in 4 positions.
- It is equipped with a large basket with integrated pocket. The reflective material profile makes evening strolls safer.
- It comes complete with footmuff, full cover hood with UV treatment (UPF 50+) and baby bottle holder.

ADDITIONAL BENEFITS:

- A mesh insert in the hood ensures proper air circulation around the stroller seat, to keep the area cool and ventilated. Excellent to see your child as you walk.
- The stroller and hood lining are fully removable and can be hand washed at 30°C.
- Equipped with special waterproof zips, to deal with all weather conditions.
- Equipped with heat-sealed slots to facilitate the passage of straps and for an even sportier look.

TECHNICAL INFORMATION:

Box content:

- Stroller seat.

APTICA XT - "ALL TERRAIN" REVERSIBLE STROLLER

- Comfort Cover
- Hood.
- Bumper bar.
- Chassis.
- Storage basket.
- Cup holder.

Optional accessories:

- **Baby Snug Pad** - a soft cotton head hugger that ensures new-borns travel in comfort.
- **Raincover** - protects your child against the rain, but also from wind and snow, and it is full-cover (covering the entire stroller).
- **Summer cover** - during the warmest months of the year, it helps keep your baby cool.
- **Stroller footmuff** - accompanies you during the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.
- **Dual bag** - a spacious, modular and multi-purpose bag so you can keep everything at hand. Matches the colour of your Aptica stroller.
- **Day Bag** - a versatile bag to carry all your baby's essentials. Matches the colour of your Aptica stroller.
